## Chapter 3

'Two people in one group.'

I don't want to  
study theory... I'm  
too far away from  
the window to enjoy  
the view, too...

"What if I can't see  
Klara today?"

...Therefore, you could resemble your parents just by eating the same kind of plants, even if you're not blood-related.

You need to be aware of rare plants, and be familiar with using common plants in order to show your expertise in magic.

You could learn how to process rare plants, and use common plants in a unique way

In our class from school,

I don't have many glass fragments left.

I guess that's because

I threw away the

ones that floated...

SHAK

I'll need to get some more again.

"Let me know if you need anything else!"

All right

Listen up now;  
I'm going to tell you  
what's for homework.

Use that plant you  
are most familiar with to  
make something you wouldn't  
normally make with it.

I don't mind  
if you pair up with  
someone. I'll make  
up a list soon.

That's all  
for today's class!  
Dismissed!

O-OH... Well, Umm...  
You have to use a plant  
you are most familiar  
with to make something  
you wouldn't normally  
make with it.

PIRE

PIRE

She said it's  
fine to pair up

So... can you  
please let go of me? ^\_~

VANILLA AAAAAAAAHHH

Oh, you heard me.  
I'll be right down.  
Just wait a sec~

...Who is that?

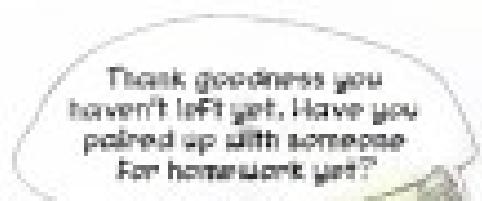

TAP!

Tada-

Mia... Hm...

Thank goodness you haven't left yet. Have you paired up with someone for homework yet?

No, not yet.

Then let's do it together!

...

Okay.

Then shall we  
meet at the backField  
with our respective  
flowers?

Sure.

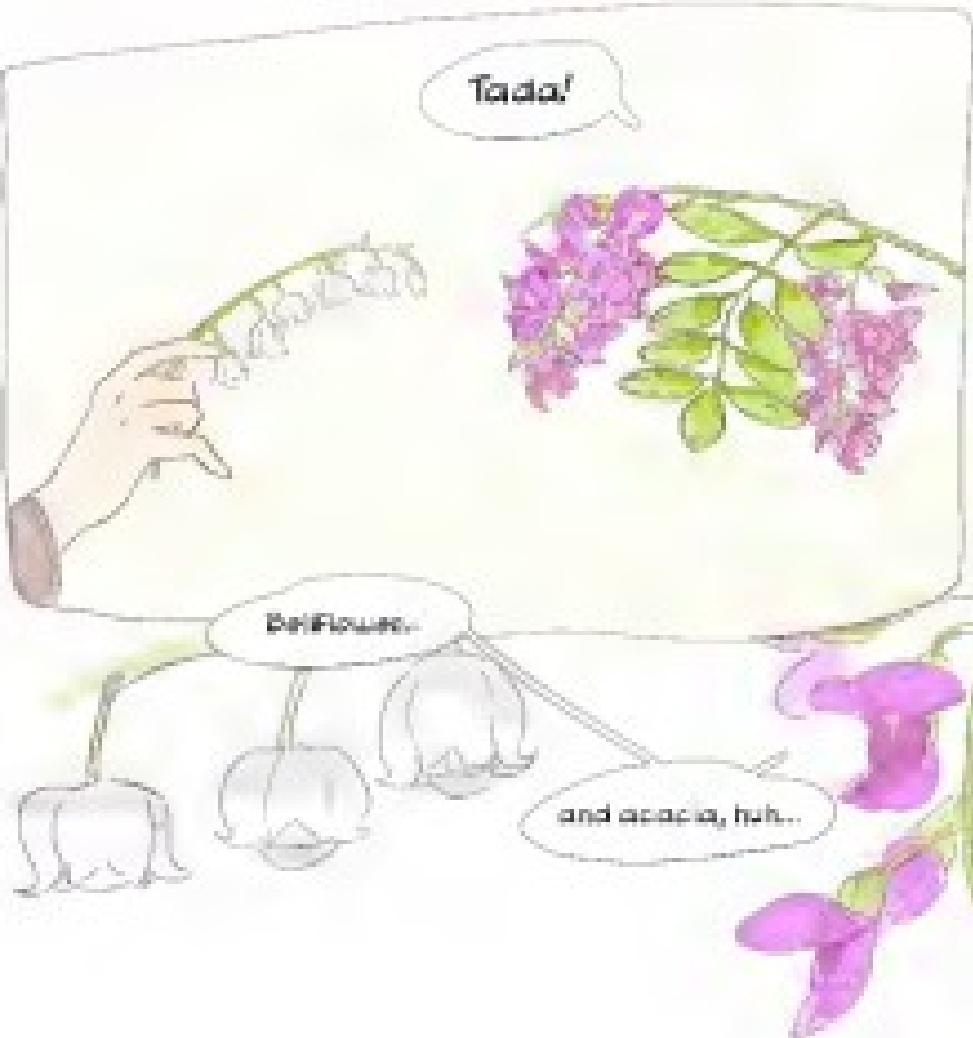

Did you bring  
your flower?

Nope.

Tada!

This is a weird project. I usually use bellflowers to make tea, bath essences, and potpourri. What about you?

Same. But in my case, I've got a tree. I can't really cut it down, so...

Haa... it's really strange, indeed.

Yeah...

Something we normally wouldn't make...

No, I don't. I put flower petals under my bed before sleeping, though

What kinds of petals?

Bellflower and rose petals? I'm not sure; my mom gave them to me...

Hmm~  
Is that why?

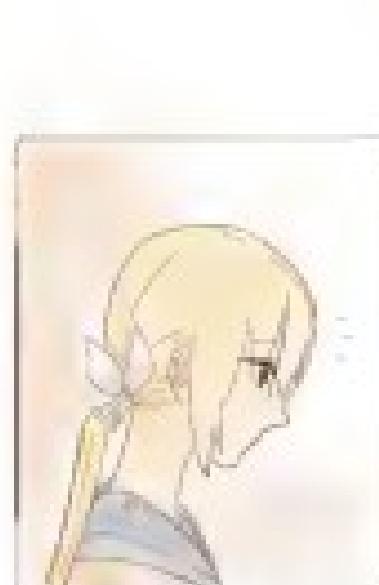

I like being near you,  
because I somehow manage  
to stay wide awake.

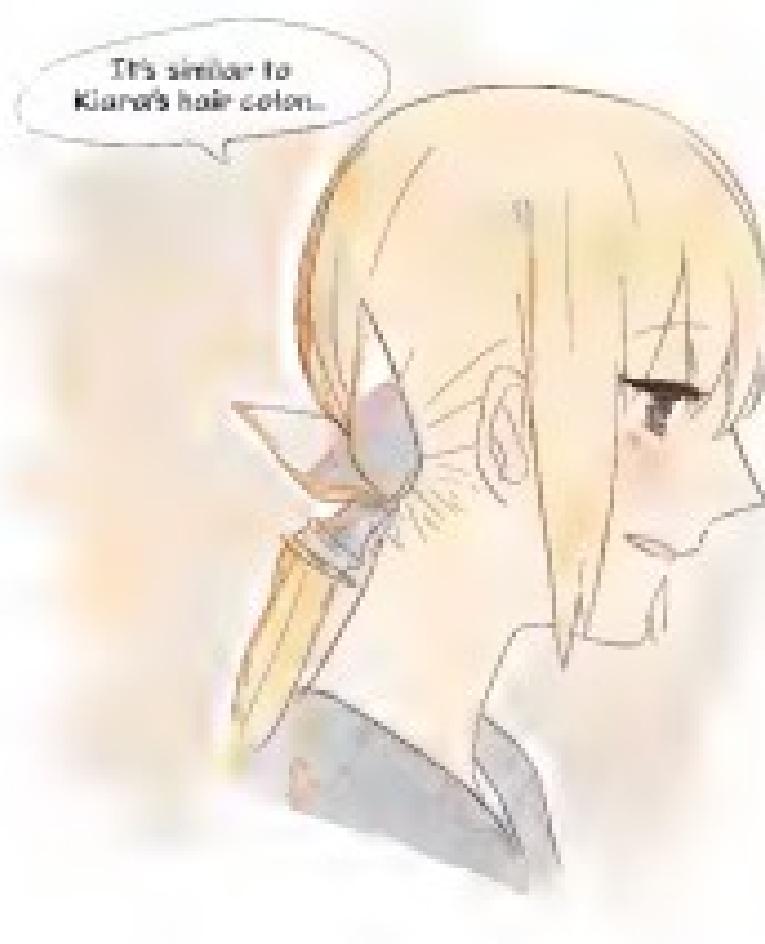

Yup. I was  
really interested,  
so I even looked  
up your name.

Huh...

You say that,  
but you still look  
pretty sleepy..

Hmm~

I didn't know  
we were in the same  
dorm! Did you??

Hmm...

To be continued...
